PROPERTY LINE STAKE PART OF SECTIONS 22, 26, 27 AND 35 IN T9N, R1W MONROE COUNTY, INDIANA

NOTES

- STATE PLANE COORDINATE BEARING BASED ON N.G.S. HORIZONTAL CONTROL MARK: "BLOOMINGTON NCNM 1985".
- FIELD WORK PERFORMED JUNE-AUG, 1999.

LEGEND

- POINT ON LINE, HUB AND LATH SET
- REBAR WITH RED PLASTIC CAP STAMPED "WITNESS"
- REBAR W/YELLOW CAP STAMPED "BLED50E TAPP PC 50920004"

In accordance with the Indiana Code, Title 36, Chapter 12-9 of the Indiana Administrative Code, the following observations and opinions are submitted regarding the various uncertainties in the location of the lines and corners established on this survey as a result of:

- Variances in the reference monuments;
- Discrepancies in the record descriptions and plats;
- Inconsistencies in lines of occupation and;
- Random Errors in Measurement (Theoretical Uncertainty).

The Theoretical Uncertainty (due to random errors in measurement) of the corners of the subject tract established in this survey is within the specifications for a Class D survey (plus or minus 1.00 feet) as defined in I.A.C. 865.

This survey was performed at the request of Indiana University. The property is currently in the name of the Trustees of I. U. (Deed Records 115/266-57, 119/250/168/494-6; 242/290-11). The purpose of this survey was to line stone the East side of the I. U. property in Sections 22, 26, 27, and 35 in Township 9 North, Range 1 West.

CORNERS FOUND:

- Southwest corner of Northwest quarter, Section 35; P. K. nail flush in centerline of 10th Street, per Smith Quillman survey recorded in Survey Book 1/263, 1/402, and 3/474 in the Office of the Recorder, Monroe County, Indiana.
- Center of Section 35; railroad spike 4 inches deep in centerline of 10th Street, per Smith Quillman survey recorded in Survey Book 1/402 and 3/474.
- Northwest corner of Section 35; 1/2 inch rebar with aluminum cap stamped "PROP COR", 2 inches tall at the west base of a 5 foot tall, 9 inch square limestone post, per Smith Neubecker survey recorded in Survey Books 3/179 and 3/473, Office of the Recorder, Monroe County, Indiana.
- Northwest corner of Journal property, Section 35; 1/2 inch rebar with Smith Neubecker & Associates plastic cap, 6 inches tall per survey recorded in Survey Book 3, page 179.
- Quarter corner, Sections 26 and 35; 5 inch x 8 inch x 8 inch tall sandstone with chiseled "4" on top, in a pile of rocks, per surveys recorded in Survey Book 3/179 and 3/473, and per the recorded plat of Rachel's Glen Subdivision as recorded in Plat Book 8/270-1, Office of the Recorder of Monroe County, Indiana.
- Northwest corner, Lot 8, Rachel's Glen Subdivision; 1/2 inch rebar with Smith Quillman cap, 4 inches tall.
- West line of Devonshire South Subdivision (Plat Book 8, page 264); four 1/2 inch rebar with Curry caps, as shown.
- Center of Section 26; 6 inches x 6 inches x 5 inches tall out stone with chiseled "C" on top per the recorded plat of Devonshire Section II Subdivision (Plat Cabinet B, page 359, Office of the Recorder of Monroe County, Indiana).
- Northwest corner of Deed Record 119, page 250; 1/2 inch rebar with Smith Quillman cap, 5 inches tall.
- Southwest corner of Lot 10, Loran Ridgeview Estates, Section 3; Plat Cabinet C, Envelope 225, Office of the Recorder of Monroe County, Indiana; 1/2 inch rebar with Smith Neubecker & Associates cap, 16 inches tall in rock pile on steep slope.
- Northwest corner of West half of Northwest quarter of Section 26; 1/2 inch rebar with Smith Quillman cap, 7 inches tall per Smith Neubecker survey of Lake Griffy boundary dated 5-4-98 and per recorded plat of Loran Ridgeview Estates Subdivision Section 3 Amendment One (Plat Cabinet C, Envelope 259, Office of the Recorder, Monroe County, Indiana).
- Northwest corner of Section 26; 1/2 inch rebar with Smith Neubecker & Associates cap, 8 inches tall, per Smith Neubecker survey of Lake Griffy boundary.
- Southwest corner of Southwest quarter of Southeast quarter, Section 22; 1/2 inch rebar with Smith Neubecker & Associates cap, 8 inches tall, per Smith Neubecker survey of Lake Griffy boundary.
- East line of Southwest quarter of Southeast quarter, Section 22; 1/2 inch rebar with Smith Neubecker & Associates cap, 7 inches tall, per Smith Neubecker survey of Lake Griffy boundary.
- Corner in the interior of Southwest quarter of Southeast quarter, Section 22; 1/2 inch rebar with Smith Neubecker & Associates cap, 6 inches tall per Smith Neubecker survey of Lake Griffy boundary.

ESTABLISHMENT OF LINES AND CORNERS:

- The Southwest corner of the Southwest quarter of the Northwest quarter of Section 35 was set at the midpoint between the found West quarter corner and the found center of section.
- The interior lines in the Northwest quarter of Section 35 were established by standard sectional breakdown holding the four found corners of the Northwest quarter.
- The North-South property lines through sections 35 and 26 were held at the positions of the found monuments along the adjoining subdivisions, as shown.
- The North line of Section 26 and the North line of Section 27 were held at the positions of the found monuments on those lines.
- The property line through the southeast quarter of Section 22 was held at the positions of the found monuments and the record angle to Lake Griffy per the 1998 Smith Neubecker survey of the adjoining property.

Subject to the above observations, it is my opinion that the uncertainties in the location of the lines and corners established on this survey are as follows:

Due to variances in reference monuments; two 5/8-inch rebars on the West line of Lot 25, Devonshire Section I Subdivision, as shown.

Due to discrepancies in the record descriptions:

- The North-South property line along the West side of Loran Ridgeview Estates Section III in the Northwest quarter of Section 26 was found to measure 1566.39 feet. The subject deed description calls for 1566.62 feet. However, the adjoining platted subdivision calls for 1566.62. Uncertainty of 10.00 feet.
- The standard sectional breakdown of the Northwest quarter of Section 35 resulted in a distance along the East-West property line the North half of Section 35 of 155.49 feet. The recorded survey (Survey Book 3, page 179) of the adjoining property shows 1598.15 feet. Uncertainty of 2.66 feet.

Due to inconsistencies in lines of occupation; Fence remains as shown.
